

Shengxi Jin

E-mail:shengxi.jin@stonybrook.edu

Education

University of Science and Technology of China (USTC), Hefei, China
B.S. in Mathematics and Applied Mathematics, Loo-Keng Hua Honor Program

September 2021 - June 2025

Stony Brook University (SBU), Stony Brook, United States
Graduate student, Mathematics Ph.D. program
Advisor: John Pardon

August 2025 - Present

Research Interests

Symplectic geometry, and related topics in low-dimensional topology and mathematical physics.

Mathematical Experience

August 2023: **Algebra and Number Theory Summer School**, at CAS, Beijing

June - December 2024: **USTC Undergraduate Research Program**: *Symplectic studies on the large-scale Hofer's geometry via Floer theories*, advised by Dr. Jun Zhang

July 2025: **Summer School in Geometry and Analysis**, at USTC

June 2026: **Beijing-Shanghai Summer School in Mathematics: Midsummer Skein**, at SIMIS, Shanghai

Selected Honors & Awards

- | | |
|--|---------------|
| • Yang Yongman Scholarship | December 2022 |
| • The 15th National College Student Mathematics Competition(First Prize) | January 2024 |
| • Loo-Keng Hua Scholarship | December 2024 |
| • Candidate for Guo Moruo Scholarship | January 2025 |
| • Outstanding Graduate of USTC | April 2025 |
| • Honorable Mention for 2025 S.-T. Yau College Student Mathematics Contests, subject of Geometry and Topology | May 2025 |

Service

- TA for Foundations of Geometry, USTC, Fall 2023.
- TA for Commutative Algebra, USTC, Fall 2024.
- TA for Mathematical Analysis B2, USTC, Spring 2025.
- Grader for Applied Real Analysis, SBU, Fall 2025.
- Grader for Applied Complex Analysis, SBU, Spring 2026.
- Office hour at Mathematical Learning Center, SBU, Fall 2025 - Spring 2026.
- Spring 2026 SBU Directed Reading Program
topics: Riemann–Roch Theorem.
